Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir/Madam:

**Clean Specification**

A USPTO employee at the Office of Initial Patent Examination confirmed that we did file an original copy of the PCT application, a preliminary amendment of the PCT application, and a clean copy of the amended PCT application on August 3, 2006. That employee confirmed that we were correct about the claim fees that were addressed in our March 24, 2008 response.

That same USPTO employee requested we submit a clean version of the application that corresponds to the original August 3, 2006 submission and the preliminary amendment submitted on December 13, 2006 that corrected a typographical error of "phosphate" to "phosphite." The antecedent basis to correct that typographical error can be found at page 3 of the clean copy of the amended PCT application that was submitted on August 3, 2006.

Accordingly no new matter has been entered in this clean version of the application.

Respectfully submitted

  
Kevin D. McCarthy
